

# Med Tac Training Program

Alicia LDS Church 28291 Alicia Pkwy,  
Laguna Niguel, CA 92677

June 13, from 7:10 to 9:10 PM

## What

We will be teaching Bystander Care targeting the 8 leading causes of death of children, youth, and young adults. See our YouTube Video at <https://www.youtube.com/watch?v=2IM0jh4qCQU> See the article in *Campus Safety Magazine*, Dec. 2018 issue which describes the program <https://www.campussafetymagazine.com/news/what-is-bystander-care/>

During this course participants will receive:

- **Stop-the-Bleed Training:** The program includes the *American College of Surgeons Stop-the-Bleed* curriculum and all attendees will earn certificates of completion. Attendees will learn the science and best practices for teaching the skills of wound pressure, tourniquet application, and wound packing.
- **CPR-AED Update:** We will introduce the latest information regarding the American Heart Association CPR program including hands only CPR. Participants get a "hands-on" experience using the latest Bluetooth enabled CPR manikins that measure proper compression and frequency of compressions. They will learn how and why scouts and young people love to learn how to perform CPR properly.
- **Anaphylaxis, Heimlich and Opioid OD Update:** We will introduce key issues regarding these most common causes of death including how to use the proper tools such as Epi Pens, Narcan, and certain prevention methods.

## Who

Over the course of 2019 and 2020 we will be training scouts, volunteers, and their families through our full Med Tac Program which typically will take an entire Saturday or two nights. We look forward to using the event on June 13th to get everyone trained and certified with the Stop the Bleed curriculum and introduce them to the broader Med Tac Program:

- **Scout Leaders:** Given that we will host a number of events in Orange County, we want to make sure scout leaders are aware of the Med Tac Programs we will be delivering in partnership with the Orange County Boy Scout Council.

## Why

Professional first responders arrive at approximately 10 minutes after a call is made. By administering bystander care to children, youth, and adults within 3 minutes, there is an enormous gain of saved lives and long term harm prevented. We will tackle the 8 most common preventable deaths such as sudden cardiac events, bleeding, choking, opioid overdose, and anaphylaxis,

## When

We will train the group right after the opening activities have been completed.

## Where

The meeting site is Alicia LDS Church 28291 Alicia Pkwy, Laguna Niguel, CA 92677

## How to Register

Register by filling out, scanning, and emailing or faxing the attached form to [Info@Med-Tac.org](mailto:Info@Med-Tac.org) or by filling out the online registration form at [www.MedTacOC.org](http://www.MedTacOC.org)

## How Much

The training is ENTIRELY FREE.
