ALL Families are welcome!

- Cardiac Arrest
- Choking & Drowning
- Life Threatening Allergies
- Major Trauma
- Opioids & Poisoning
- Common Accidents
- Transportation Accidents
- Bullying

Med Tac Training Program

March 14, 2020 from 8:00 AM to 2:00 PM
Saddleback Church Lake Forest Campus
1 Saddleback Parkway, Lake Forest, CA

What

We will be teaching Bystander Care targeting the 8 leading causes of death of children, youth, and young adults. See our Orange County Video at www.MedTacOC.org. See the article describing the program in *Campus Safety Magazine*, <https://www.campusafetymagazine.com/news/what-is-bystander-care/>.

- **CPR-AED Certification:** We will be teaching the American Heart Association CPR program including hands only CPR in the basic course that will be done by 2:00 PM. Those who want to earn AHA *Heartsaver* certification may do so and finish at 4:00 PM.
- **Stop-the-Bleed Training:** All attendees will earn the *American College of Surgeons Stop-the-Bleed* certificate. Those who qualify, such as security teams, EMT's, and those with medical professional backgrounds including school nurses, physicians, and PAs, will be able to be certified as instructors. Attendees will learn wound pressure, tourniquet application, and wound packing.
- **Anaphylaxis, Heimlich, Opioid OD, and Common Accidents:** We will be providing training to address the other most common causes of death including how to use the proper tools such as Epi Pens, Narcan, and certain prevention methods.

Who

Training is for anyone over 10 years of age. The program is especially designed to help leaders at schools, churches, communities, and Scout groups start their own programs. Those with prior Med Tac training can earn CPR/AED cards.

- **School Nurses, Athletic Trainers, Coaches, and Security Teams:** Nurses will earn Continuing Education Units (CEUs). The critical bystander care know-how and skills to save the lives of children, youth, and adults will be covered.
- **Students, Teachers, and School Administrators:** We will be covering implementation of "3 minutes-to-Care" strategies for public and private schools. We will introduce the opportunity to start new afterschool Med Tac programs.
- **Lifeguards, Law Enforcement, EMTs, and Professional First Responders:** The latest CPR/AED, opioid overdose care of anaphylaxis, and updates on control of severe bleeding will be covered that will build on their current training.
- **California Scouts, Leadership, and Staff:** Scouts, scoutmasters, as well as staff and leaders of Boy Councils are invited to join us including staff from their camps and scout families from across California.
- **Worship Center Teams and Leaders:** Given the rise in active shooter events at worship centers, we are inviting any and all faith-based security and health ministry teams to join us for this first event and all events we host in the future.
- **All Faiths Security and Health Ministry Members:** All security and health ministry staff and volunteers across faith-based organizations are invited in light of the rise of lethal threat incidents at houses of worship.
- **Youth Ministry Teams:** We welcome any faith-based leaders of youth ministry teams and programs for children, youth, and young adults in OC. Members of the Saddleback Student Ministries will be participating.

Why

Professional first responders arrive approximately 10 minutes after a call is made. By administering bystander care to children, youth, and adults within 3 minutes, there is an enormous gain of saved lives and long-term harm prevented. We will tackle the 8 most common preventable causes of death such as sudden cardiac events, bleeding, choking, opioid overdose, and anaphylaxis. Our battle is "failure to rescue." You can win that battle with this training.

When

Registration will begin at 7:00 AM. The basic program will start promptly at 8:00 AM and finish at 2:00 PM. The train-the-trainer and full CPR/AED session ends between 3:00-4:00 PM to allow completion of the AHA certification process.

Where

The meeting site is Saddleback Church, Lake Forest Campus at 1 Saddleback Parkway, Lake Forest, CA 92630. We will provide a map to the the Refinery Building when you register. Register in the lobby for your passport and message notes.

How to Register

Register by filling out, scanning, and emailing or faxing the attached form to Saddleback@MedTacOC.org or by filling out the online registration form at www.MedTacOC.org

How Much – FREE!

The training is ENTIRELY FREE. A complementary lunch will be provided. Those who want to complete the full American Heart Association Heartsaver® CPR/AED training to receive their official card will only pay the registration and book fee of \$26. Families are welcome!

Med Tac Training Program

March 14, 2020 from 8:00 AM to 2:00PM

Saddleback Church Lake Forest Campus

1 Saddleback Parkway, Lake Forest, CA

Enter **1 Saddleback Parkway** in Lake Forest in your GPS, however the church property is quite extensive. You must proceed up the hill on that street to turn right on **Purpose Dr**. The Refinery building will then be on your left. You enter from and the trees hide the building as you proceed up the hill to the parking lot.

Park in the Refinery Parking Lot and register in the lobby area. We will direct you to the theater for training.
